Dear Resident,

Thank you for your interest in Foster City's Spring Season Leisure Update. In here you will find a diverse range of programming for everyone young and old. I can say that all the staff here at the Foster City Parks and Recreation Department takes pride in providing not only the best programming possible but also the best facilities. We all hope you enjoy the programs you participate in and the parks you visit.

Our state-wide recreation organization is working to get the word out to everyone that "Parks Make Life Better". In a recent survey, it was found that over 90% of people polled have visited a park in the past year. This shows how important parks are to our communities. With the busy lifestyles and less than optimal food options we all face, staying active is more important than ever.

Workout equipment needed for exercise? With spring coming and the weather improving, look no further than your local park. Have a great spring!

Sincerely,

Manny A. Hernandez  
 Recreation Superintendent,  
 City of Foster City  
 President, California Parks and  
 Recreation Society District 4
