

25 When people ask me what I do for a living, my answer is based on who I am. I am a father, a husband, a  
17 brother, a son, a friend, and a businessman. My parents raised me in Foster City with Foster City values  
17 oriented towards family and community. As an All-League athlete in multiple sports in high school and  
18 an athlete in college, I learned about the importance of leadership and teamwork. I earned a degree in  
15 Electrical Engineering from UC Davis and an MBA from Santa Clara University. I grew through a series of  
14 promotions at Xilinx over a 15 year career. Today, as a Managing Partner at Building Kidz Worldwide  
18 located in Foster City, I am doing my part to enhance early childhood education and create jobs for hard  
18 working teachers. I am a Board Member and coach for Little League and I coach for AYSO. Now is the  
22 time for me to give back more to the city that gave me so much. I believe my ethics and my experiences  
15 make me the best candidate to overcome our challenges with education and traffic while reconnecting  
10 our community and small businesses. Thank you for your consideration.
