RECEIVED

Candidate Statement

Jon Froomin

I have been affiliated with Foster City for 47 years. I have 36 years experience working with local governments, 25 as an employee of Foster City. I am a product of Foster City schools and Foster City Troop 175, Little League and AYSO and received the City of Foster City Honors Award. I'm a past president of the Foster City Lions Club and have been recognized by Special Olympics Northern California and Special Olympics Southern California. I am proud of my reputation as a leader and collaborator.

In March 2020, I was elected to continue my community service as a Foster City councilmember. I want to continue working with my fellow councilmembers to welcome our community back to their Council Chambers and to participate in a respectful governance process. During my short tenure, I have worked with other councilmembers to start the process to improve relationships and to respectfully discuss topics to a reasonable consensus. I have been an active participant in City Council meetings and have listened to our community, making difficult decisions when there wasn't a unified interest. The effort to rebuild our community reputation and public trust continues and I would like to be a part of the process.

I believe my knowledge, skills and character will help our City as we move forward and reunify our community.
