Re: Bay Vista Planned Development Roofing

Because a re-roofing permit issued for the entire development was issued on May 20, 1997 for replacement with Elk-40 Yr/Weatherwood, new roofing request for Elk-50 Yr/Weatherwood will be considered a like for like replacement. The Elk-40 Yr is equivalent to the Elk-50 Yr. per the manufacturer. No prototype will be required if the replacement roof material is Elk-50 Yr/Weatherwood. (See attached building permit record)

BLDG INSPECTION RECORD
