To Whom It May Concern:

The Lido Isle Home Owners Association has approved a new prototype for their garage doors.

The existing doors are flat one piece wood doors. The new approved prototype is a steel flush panel insulated steel back door ^{with windows} manufactured by Wayne Dalton. It has a textured prepainted finish and the color they have approved is taupe. Next year when Lido Isle paints the complex, they may change the door color. If they do, they will submit for a change in the prototype color.

Attn: Marlene Subhashini

Dear Marlene,

Per your request, this letter acknowledges Lido Isle HOA's request for a prototype to replace all of the (84) old original one piece wooden garage doors at Lido Isle HOA at the address range from 900 to 1047 Lido Lane.

The new garage doors are manufactured by Wayne Dalton out of Mt. Hope, Ohio and we have selected Model # 9600 flush panel insulated steel back doors with emergency vault key releases and handles in the color Taupe. There are (48) 7'7" x 7' garage doors and (36) 9'7" x 7' garage doors and they will be installed by Econo-Doormasters of Belmont, CA. The name of their representative is Jeff Whittaker and he can be reached at his office number: (650) 594-1668. Please call him for any technical questions.

I would also add that Lido Isle HOA is planning to paint the exterior of the complex in 2013 so the possibility exists that we may decide to change the factory standard color Taupe at that time and paint the doors a different color. If that is decided, we will of course notify the Planning Dept. prior to painting the new garage doors.

Thank you for your assistance and feel free to contact me or Jeff Whittaker if you have any questions on this Project.

Sincerely,

Edward L. Pierce Jr.
