

# F.C.I. Needed: Mystery At The Vibe!

Friday, July 31, 2020

**Foster City Parks & Recreation** Staff were shocked this morning upon arriving to work at The Vibe, Teen Center (670 Shell Blvd.) to find that someone had broken into the building. According to staff, it doesn't appear that anything has been vandalized or stolen, with the exception of the mascot for Camp Outback. This "Karla the Kangaroo is a Camp Outback favorite with the campers each year and they look forward to seeing her every day", says Dusty Landwehr, Camp Coordinator. "We have to find that Kangaroo!"

While this crime may not seem extreme, it still is hitting close to home because **all of the suspects are employees within the Parks & Recreation Department**. Motive remains unclear at this time. The Department is asking for help from the Foster City Investigators to solve this mystery. As a member of the F.C.I. you are being given access to all of the evidence that we have so far. Hopefully one of you can crack the case!

Based on the items left behind at the crime scene, it seems like the suspect is leading us on a mystery hunt. It is highly likely that **the suspect left clues in the form of puzzles throughout the City, with each clue leading to a new location**. The next page shows the evidence we have in detail. Be sure to document anything you find during your investigation; you never know what you might need to solve a clue! Please don't remove anything from where you find it as it is all evidence in an open investigation.

Your mission is to use the evidence from the crime scene, along with all other clues you may find during your investigation to figure out **who** the culprit is, **what** they used to break in, and **where** they hid Camp Outback's Karla the Kangaroo. We have two weeks to get to the bottom of this and find the missing mascot! The deadline is Friday, August 14. Once you think you have the answer to all three questions, submit your answers to [FCinvestigators@fostercity.org](mailto:FCinvestigators@fostercity.org). **We are offering a reward to the person who solves the case (if more than one person solves it by the deadline, we will have a drawing to select the winner!)**

## Good Luck, Foster City Investigators!

# Evidence From Crime Scene

This magnifying glass logo looks like it could be some sort of calling card for this game. It was found taped to the wall of The Vibe, not dropped like the other items, so it seems the suspect left it intentionally. Keep your eyes peeled for this image! It will probably come in handy when searching for clues.

This piece of evidence seems like a good place to start. It seems like it dropped from the suspect's pocket. Definitely look into this first! It's the only thing that has useful information right now.

This item was also left at the scene. It was crumpled as though it was in the suspect's pocket, so they probably didn't mean to leave it behind. It is some sort of code that probably will be useful in your investigation. Look out for these symbols!
