

SAFE & EFFECTIVE REMOTE RESTRAINT

ABOUT

The hand-held BolaWrap™ 100 remote restraint device discharges an eight-foot bola style Kevlar® tether to entangle a subject at a range of 10-25 feet.

CONTROLLING ENCOUNTERS

Other force options primarily rely on “pain compliance” often escalating rather than controlling dangerous law enforcement encounters.

The BolaWrap 100 is designed to be deployed early in an encounter between an officer and subject to prevent unnecessary escalation and violence.
