

Rate Assistance Program

The District may be able to offer Rate Assistance discounts to qualifying customers. To learn more or to apply, go to: www.fostercity.org/wwrap.

Water Conservation Tips

Water is a precious resource! Thank you for taking steps to reduce water consumption.

- Switch from lawn to a drought-tolerant landscape.
- Turn the faucet off while brushing your teeth to save about 1 gallon of water per minute.
- Run only full loads in the clothes washer or dishwasher.
- Fix leaks around your home to save water and lower your monthly bill.

Water Conservation Rebates

Get money to help pay for water-saving changes at your home or business. The District offers the following rebates and more:

- "Lawn Be Gone" Program
- Smart Irrigation Controller Rebate
- Synthetic Turf Rebate
- Sprinkler Head and Rotating Nozzle Rebate

For information on water conservation rebate programs, go to: <https://rb.gy/wyyovp>

Questions

If you have questions regarding this notice, please contact (650) 286-3270 or publicworks@fostercity.org.

You are hereby notified, pursuant to Government Code Section 53759, that any judicial action or proceeding to attack, review, set aside, void, validate, or annul the District Board's adoption of the proposed water rates must be commenced within 120 days of the effective date or of the date of the final passage, adoption, or approval of the ordinance or resolution adopting the water rates.

Foster City, CA 94404

Estero Municipal Improvement District

Notice of Public Hearing on Proposed Water Rates

**Monday, June 6, 2022
6:30 P.M.**

SAID HEARING will be held by teleconference and/or video conference at www.fostercity.org/fctv and as a hybrid meeting with an in-person component, subject to appropriate regulations. The meeting address is 620 Foster City Boulevard, Foster City, CA 94404. Final meeting location(s) will be listed on the published agenda.

The public may participate by submitting comments via email to publiccomment@fostercity.org or by providing live verbal public comment by joining the meeting via teleconference and/or video conference, or in person. Instructions on how to join the meeting are included in the top portion of the agenda posted at: www.fostercity.org/agendasandminutes.

Public Hearing Notice

The Estero Municipal Improvement District (EMID) will hold a public hearing to establish new water rates for FY 2022-2023 with an increase of 5% for fixed water charges and 3% for variable water charges. As a water customer or owner of record for a property that receives water service, we are informing you that the District Board will hold a public hearing on **June 6, 2022, at 6:30 p.m.** to consider proposed changes to its current rates to take effect on July 1, 2022.

Why are new water rates being proposed?

A significant driver for the proposed rate increases is to smooth District rate adjustments due to projected increases in the San Francisco Public Utilities Commission (SFPUC) wholesale water rate. The SFPUC, the sole water supplier for the District, projects that its wholesale rate will increase from \$4.10 per hundred cubic feet (ccf) in FY 2022 to \$4.75 in FY 2023 and \$5.28 FY 2024. These increases are included in the projected rates.

Other adjustments were required to provide necessary revenue for the maintenance, operational and capital costs associated with the water distribution enterprise.

Protest of Proposed Rates

Anyone may appear and be heard on any matter relating to the proposed water rates. Any record owner of a parcel upon which fees are proposed, or any tenant directly responsible for the payment of water service fees (i.e. a customer of record), may submit a written protest to the City Clerk / District Secretary at the return address in this notice. Per Proposition 218, only one protest per parcel will be counted. A written protest must include: (1) the address of the impacted property; (2) a statement that the protest is submitted in opposition to increases to the water rate; and (3) the name and original signature of the person submitting the protest. If the District does not receive written protests against the proposed service charges by a majority of the affected parcels by the end of the public hearing, then the District is authorized to approve the proposed rates.

Proposed Water Rate Changes

The proposed water rates were calculated to ensure that all customers are paying rates that are proportionate to each customer's costs of service. The proposed rate revisions that will be considered by the City Council are based on a water rate study ("Study") conducted by Bartle Wells Associates. The Study is available on the City's website: www.fostercity.org/publicworks/page/water-and-wastewater-rates

Single-Family Residences

Single-family residences with responsibility for indoor (domestic) and outdoor (irrigation) water uses are placed in a tiered rate structure whereby the cost of water increases based on the amount of water used in a **bi-monthly** billing cycle as follows:

Tier (#ccf)	Current	Proposed FY 2022-2023
Tier 1—0 to 20	\$5.92	\$6.10
Tier 2—Over 20	6.55	6.64

Multi-Family Residences (per living unit)

Multi-family residences with responsibility for indoor water uses are placed in a tiered rate structure whereby the cost of water increases based on the amount of water used in a **bi-monthly** billing cycle as follows:

Tier (#ccf)	Current	Proposed FY 2022-2023
Tier 1—0 to 10	\$5.92	\$6.10
Tier 2—Over 10	6.57	6.68

Irrigation Customers

Irrigation customers with *separate irrigation water meters* are provided an individually-prepared water budget based on the square footage of landscaping being watered. Usage within the water budget allotment will be charged at \$6.10/ccf. Usage over the water budget allotment will be charged \$6.70/ccf for every unit of water over the allotment. Customized reports through the year let customers know how they are doing in water use.

Water Budget Consumption	Current	Proposed FY 2022-2023
<= 100%	\$5.92	\$6.10
> 100%	6.51	6.70

Commercial Customers and Fire Line

Consumption	Current	Proposed FY 2022-2023
All Usage	\$6.04	\$6.21

Fixed Meter Charges

The fixed water meter charge is proposed to be increased by 5.0% to ensure funding for the continued safe delivery of water through the system. The meter ratios are based on meter size in compliance with the American Water Works Association.

Monthly Charge	Current	Proposed FY 2022-2023
----------------	---------	-----------------------

Domestic and/or Irrigation Customers

5/8" and 3/4"	\$24.80	\$26.05
1"	41.33	43.42
1.5"	99.20	104.20
2"	132.27	138.93
3"	289.33	303.92
4"	520.80	547.05
6"	1,157.33	1,215.67
8" or greater	1,984.00	2,084.00

Private Fire Service Protection Meter

5/8" and 3/4"	\$34.72	36.47
1"	34.72	36.47
1.5"	34.72	36.47
2"	46.38	48.71
3"	101.18	106.28
4"	182.28	191.47
6"	404.98	425.40
8" or greater	694.40	729.40

Why is There No Public Hearing for Wastewater Rates?

The District Board previously approved rate increases of 14.25% per year from FY 2020-2021 to FY 2022-2023, a 10% increase for FY 2023-2024, and a 2% increase for FY 2024-2025 to support debt-financing costs associated with the District's share of expanding the Wastewater Treatment Plant jointly owned with the City of San Mateo. These rate adjustments are already approved and no further adjustments are proposed at this time.
